

## CANOVAS GIVES UP THE UNEQUAL FIGHT

### SPANISH PREMIER AND CABINET RESIGN.

The Cause Is the Refusal of the Liberals To Take Part in the Proceedings of the Cortes—Liberal Government Is Likely To Follow the Action.

Madrid, June 3.—The premier, Senor Canovas del Castillo, has tendered to the queen regent the resignation of the cabinet, owing to the difficulty the ministers experienced in carrying on the government, in view of the parlia-

mentary situation caused by the refusal of the liberals to take part in the deliberations of the cortes. This attitude of the liberals is due to the personal encounter between the Duke of Tetuan, the minister for foreign affairs, and Prof. Comas, a liberal senator, on May 21, when the duke slapped the face of the senator after a heated debate on the Morgan belligerency resolution adopted by the United States senate.

### EXCITEMENT AT MADRID.

Queen Christina Facing an Extremely Difficult Situation.

New York, June 3.—A dispatch to the World from Madrid says: The crisis is extremely grave. The excitement in political and financial circles is intense. Never since the death of King Alfonso XII. in 1885 has Queen Christina found herself in so serious and difficult a position.

One of two things she must do. She may keep Senor Canovas as premier, with his conservative cabinet intact or modified, and keep Gen. Weyler in Cuba to persevere in his present policy, with the ample means recently voted by the cortes. Or she may call upon Senor Sagasta to form a liberal cabinet, in which Senor Moret probably would be minister of foreign affairs, with opportunity to follow his well-known inclination to come to an understanding with the United States; Senator Maura, the great home-ruler, minister of the colonies; Marshal Lopez Dominguez, war minister; Spain's best financier, Senor Gamazo, minister of finance.

This cabinet probably would send Marshal Campos to Cuba with full power to conciliate the insurgents and the loyalists by establishing more radical home rule than Senor Canovas contemplated and thus disarm the United States. In the military clubs and in political circles the majority believe that the queen will decide to have a liberal government.

The general impression throughout the city is that Senor Sagasta is likely to succeed Senor Canovas as premier, as the latter could hardly reverse the colonial policy or recall Weyler.

## PANIC AT A CIRCUS HAS FATAL RESULT

### AN EXPLOSION CAUSES A WILD STAMPEDE.

Carelessness of an Employee Responsible for the Loss of Five Lives—Twenty-Four Spectators Receive Minor Injuries—Names of Injured—Women Trampled Under Foot.

Lynn, Mass., June 3.—An employee of the Zoo, a Boston traveling circus which exhibited in a big tent here Wednesday night, was responsible for a fire panic, in which six persons were fatally burned and seven trampled nearly to death.

The exhibition was nearly over at 11 o'clock, when the gasoline ran out in one of the torches in a side-show tent. The man proceeded to fill the torch while still lighted from a small tank of gasoline, but the fumes caught fire and the flames spread over the canvas of the side-show in a flash. In a moment the fire had communicated to the large tent and ran up toward the center pole, upon which was a tank of gasoline. The employee saw the danger, but in hurriedly removing the pole he upset the tank.

A tremendous explosion followed, and the burning fluid was thrown over the crowd of 1,000 persons within the tent. A panic followed. When the tent had been cleared the wounded were taken out by volunteers and removed to the city hospital. Meantime two score of persons suffering from minor burns, sprains and bruises, were cared for in a neighboring drug store and several houses. At the hospital there were eight persons at midnight, six of whom cannot live. The fatally injured:

The officers were ordered to have the union label on all printed matter of the order. The salary of the head banker was increased to \$2,500 and of the law committee to \$10 a day. The law prohibiting membership to liquor dealers was so amended as not to affect those in the order before such legislation was enacted.

## TO MAKE A FIGHT ON SILVER

Meeting of the English Bimetallist League at Manchester.

Manchester, England, June 3.—The annual meeting of the Bimetallist league opened here Wednesday. There was a large attendance, including over 50 delegates from labor associations.

The annual report of the league expressed the deepest regret at the death of Gen. Francis A. Walker of Boston, classed as "one of the greatest economic authorities of the century."

The report referred to the support alleged to have been given to international bimetalism by M. Meline, the French premier, in the chamber of deputies, and touched upon the mission to Europe of Senator Edward O. Wolcott of Colorado, which "was so successful that it led to the appointment of the special mission now in France, by which it is earnestly hoped such co-operation will be accorded by leading nations that an international agreement will be concluded at an early date."

The report concludes as follows: "While the necessity for international bimetalism was never greater than at present, the council can, with confidence, affirm that never since 1873 have the prospects been so hopeful. In view of the serious attempt now making to secure a settlement on an international basis it earnestly calls on all friends of monetary reform to redouble their efforts during the coming year."

## THEY ARE READY TO REPORT

Illinois Senate Committee Has Concluded Its Investigation.

Springfield, Ill., June 3.—By the report of the special senate committee which investigated the misappropriation of the University of Illinois funds by Charles W. Spaulding, late of the Globe Savings bank of Chicago, the charge is made that Ex-Gov. Altgeld was a very large borrower from the bank at the time Spaulding became the university treasurer, and that he was a large borrower during his entire term as governor. When the bank went down Mr. Altgeld, the report charges, was in debt to it.

The declaration is made that the bank was practically insolvent in 1892 and that this should have been known to Mr. Altgeld. It is also claimed that Mr. Altgeld, when elected governor, was both a stockholder and director in the Globe bank and as such should have had knowledge of its precarious condition.

The committee, of which Senator Berry is chairman, will present its full report to the senate today.

## KILLED HIS WHOLE FAMILY

Shocking Domestic Tragedy at Baltimore Wednesday.

Baltimore, June 3.—Edgar Harris, a letter carrier, 32 years of age, living at 1724 Ashland avenue, shot and killed his 12-year-old son George and his daughter Ella, aged 14, and then turned the pistol on himself. He is now lying at the point of death in the Johns Hopkins hospital.

Edgar Harris, Jr., aged 9, was the member of the family who escaped uninjured. He was lying in bed beside his brother George in the front second-story window. His father fired at him, but the bullet missed his head by half an inch and buried itself in the pillow. The insane father then rushed into the back room to kill the girls, and the little fellow fled down the stairs and escaped. Harris is thought to have been mentally unbalanced by the recent death of his wife, to whom he was deeply devoted. He had always been a devoted husband and father.

### To Settle With Mrs. Ruiz.

## REDUCTION SECURED BY SENATOR VEST

### DEMOCRATIC MEMBER CARRIES HIS POINT.

First Change Made in the Tariff Bill Without the Consent of the Committee—Excellent Progress Being Made on the Bill—The South Carolina Dispensary Law.

Washington, June 3.—The senate made greater progress on the tariff bill than in any day since the debate opened, completing more than half of the important metal schedule. The speaking was by the Democratic senators, the Republican senators taking no part in the debate except at rare intervals to answer questions which would expedite the advance of the bill. Messrs. Jones (Ark.) and Vest urged numerous amendments, embodying in the main the Wilson rates, but these were rejected with only one exception. This exception related to anvils, on which Mr. Vest secured a reduction of the committee rate from 2 to 1 1/2 cents per pound. It was the first change made without the assent of the committee and it was due mainly to the listless manner of many senators in voting.

Early in the day Mr. Tillman (S. C.) secured the adoption of a resolution directing the judiciary committee to inquire into the recent decisions against the South Carolina dispensary law, with a view to reporting such legislation as might be desirable.

## CHURCHMEN AT SARATOGA

Saratoga, N. Y., June 3.—The second day's work of the seventy-first anniversary of the Congregational Home Missionary society Wednesday showed an increased attendance. The devotional service was led by the Rev. Dr. Joel Ives of Stratford, Conn. "The Auxiliaries" were discussed in general session and interesting addresses on their behalf were made. This service was followed by the fifteenth annual meeting of the woman's department.

At the night meeting the Rev. J. B. Clark of New York spoke on "A Year of Distress." He said in part: "The total decline of the year in gifts from the living amounts to over \$67,000, and this estimate does not include in either year any special contributions toward the debt. In the same time the falling off in legacies, always an uncertain quantity, has been over \$51,000, making a total deficit in our available resources, as compared with the seventieth year, of about \$117,000, and leaving a total debt upon the treasury, old and new, of \$127,500."

Maj.-Gen. Oliver O. Howard, Vermont, was elected president.

### Loyal Legion at Detroit.

Logansport, Ind., June 3.—At a meeting of stockholders and depositors of the State National Bank, which, it is alleged, was wrecked by John F. Johnson, enough stock was subscribed to reorganize. Old stockholders took \$100,000 of the stock, and depositors and new investors over \$100,000 more. John Gray, a wealthy merchant, will be president, and Bank Examiner Caldwell is urged for cashier. The bank will resume inside of ten days under the name of the City National Bank.

### Ripe for a Lynching.

Sterling, Ill., June 3.—Not since the killing of Farmer Swartout by his two sons in 1893 have the residents of Whiteside county been so aroused as now over the atrocious murder of George Kauffman. So intense is the feeling of Jordan township against the perpetrators of the crime that the authorities dare not arrest any of the suspects lest in the inflated imagination of the people suspicion be fanned into belief and an innocent man suffer the penalty lynch law imposes.

### Cigarette Bill Is Killed.

Springfield, Ill., June 3.—Representative Ross C. Hall of Cook has finally been compelled to give up effort to revive his cigarette bill, which he successfully piloted through the house. The bill passed that body by a unanimous vote, but some influence in the senate has buried it in the committee on education. All Mr. Hall's activity to bring it to life is useless, and no prohibitory cigarette legislation goes this session.

### Repeal Bill Is Dead.

Springfield, Ill., June 3.—The senate rejected this session. The bill was defeated by a vote of 23 yeas and 23 nays. The bill was introduced by Representative Ross C. Hall of Cook, and with this result the bill is dead.

## A RED HOT BLAZE AT QUIRK'S HOME

MRS. QUIRK WAS PAINFULLY  
BURNED.

Fell From a Chair While Holding  
a Lighted Lamp—Her Clothes Were  
Ignited, But the Blaze Was Extinguished—Mr. Quirk Places His  
Loss at \$800.

A fire at the home of E. J. Quirk, at  
the corner of Second street and Adams  
avenue, Monterey, at 10 o'clock last  
evening, did extensive damage to the  
residence, and Mrs. Quirk was pain-  
fully burned.

Two kerosene lamps were used to  
light the parlor, being held up by a  
gas bracket. Mrs. Quirk stood on a  
chair to remove the lamps, when the  
chair was tipped over, and she fell to  
the floor. The lamp was broken by  
the fall, and blazing oil was scattered  
in all directions. Into the blazing  
mass Mrs. Quirk fell. An instant  
later her clothing was ablaze, and be-  
fore the flames could be extinguished,  
she was quite painfully burned. Neigh-  
bors hastened to Mr. Quirk's assist-  
ance, and helped him fight the flames,  
and an alarm was turned in from box  
52, at the corner of Center and West-  
ern avenues. Wet blankets and water  
had been used to excellent advantage,  
however, and the fire was under con-  
trol before the department arrived,  
the distance from the fire station to  
the residence being fully a mile and a  
half.

The residence was owned and oc-  
cupied by Mr. Quirk, and the building  
and contents were insured.

"Three rooms were ruined," said  
Mr. Quirk this morning. "The piano  
and furniture were spoiled, and my  
loss will be about \$800. Mrs. Quirk  
was quite painfully burned as she fell  
on the lamp. I think I am very lucky  
that the house was not entirely de-  
stroyed."

Fire at Milton Junction.

Tuesday morning about 9 o'clock  
smoke was seen issuing from the roof  
of the house owned by O. W. Thiery,  
formerly owned by Allen Osmund,  
near the south "Y" at Milton Junc-  
tion. The fire started near a chimney  
on the back kitchen. The neighbors  
soon began to arrive, but it was use-  
less to fight the element. All efforts  
were directed to saving the furniture  
and the out buildings. Nearly all of  
the goods were taken out of the house.  
The upright part of the house was  
comparatively new and in good condi-  
tion. Mr. Thiery figures his total  
loss at about \$1,400, with \$600 insur-  
ance in the Farmers' Mutual of Har-  
mony.

## THE SYRIANS MAY AGREE

Quite Likely That the Court Case Will Be  
Dropped.

The citizens of Janesville who are  
anxious to hear the Syrian trial which  
is scheduled to take place next Mon-  
day morning may yet be disappointed.  
An effort to keep the matter out of the  
courts is now being made.

"We are not looking for this kind of  
notoriety," remarked one of the Syr-  
ians, "and I think that we will have  
to disappoint you Americans and settle  
our little trouble among ourselves."

of W. H. Sargent Post last evening  
and during the evening was presented  
with a handsome quilt by the ladies  
of the corps, Mrs. Hattie McGuire,  
the corps president, making the pre-  
sentation speech. The present was a  
handsome autograph quilt worked  
in red and white, while on each block  
was worked the signature of a mem-  
ber of the corps. In the center was  
the inscription "William V. Morrison  
from W. R. C." surmounted by an  
anchor. The presentation was a  
complete surprise to Mr. Morrison,  
but he soon "found his tongue," and  
thanked the donors with a very feel-  
ing speech. Mr. Morrison was a sailor  
during the late war. The ladies pre-  
sented the quilt to him in recognition  
of the many favors done them in times  
past. The names on the quilt are as  
follows:

Hattie McGuire,	Lavina Hiller.
Martha G. James,	Achsa D. Thom.
Emma Skelly,	Ellen Nichols.
Sarah A. Case,	Jennie A. Bowes.
Emma R. Herrick, S. V.	Margaret R. Miltimore.
P. West Superior;	Elizabeth Loudon.
Lois Bliss,	Hattie M. Mills, J. V. P.
Mary L. Willis,	Racine.
Etta A. Nott,	Mattie Parker.
Lauda C. Burchard,	Dora Kenyon.
Pres. Fort Atkinson;	Elizabeth Hill.
Ellen L. Willis,	Sarina Jarvis.
Phoebe Norcross,	Emma Boyes.
Martha Hayford,	Elizabeth Rabyor.
Elizabeth McDonald,	Henrietta Sanner.
Elanor Polay,	Livania Kruse.
Ella M. Halsey,	Ella Berrell.
Ada Kimberley,	Elizabeth Little, Chap.
Lacy Miller,	Portage.
Ada Seleck,	Eva Cannon.
Ettie Gibson,	Jennie Bidwell.
Maggie Baker,	Nellie Blakely.
Amelle Wilde,	Maria Gibbs.
Melie C. Collins,	Elizabeth Trumble.
Rosa Fenton,	Eliza J. Warren.

Nearly all the members of the corps  
with Dr. J. B. Whiting and Rev. and  
Mrs. H. W. Thompson were present.  
Mr. Morrison in his reply to the  
presentation speech spoke feelingly,  
telling how a woman once kept him  
from going to Andersonville or  
Libby prison. Mr. Morrison was the  
coxswain of a man-of-war's boat and  
was sent out with a crew of sixteen  
men to forage. The party was cap-  
tured but the woman in question  
drugged the guard and the Jack  
Tars made their escape.

Mr. Morrison has been of great as-  
sistance to the corps in their work,  
which fact they have appreciated. He  
has refused all offers of gifts saying to  
"give the things to the poor." Hence  
the making of the quilt and the presen-  
tation to him last evening. Mr. Mor-  
rison said today that he had never  
been more surprised or pleased during  
his lifetime.

## MANAGER FULTON IS GONE.

Head of "The Money Order" Company  
Leaves Players in the Lurch.

Manager James F. Fulton, of "A  
Money Order" company, which com-  
pany was in this city last week, sud-  
denly disappeared Monday evening  
from Oshkosh taking with him his wife  
Helen Fox Fulton and \$60 of the re-  
ceipts. Four members of the company  
are now in Oshkosh and are without  
money. Those left behind are Mr. and  
Mrs. Fred Douglas, Frank Carrol, and  
P. J. Kane. The company have been  
playing in a streak of hard luck and  
while in this city they were at the  
point of disbanding. Mr. Douglas  
says that the company has been in ex-  
istence only a couple of weeks, being  
formed with players formerly with  
other companies. The members of the  
company have talent, he says, but the  
plays have been poor and consequently  
patronage was light.

Enjoyed Dr. Anna Melville's Lectures.

They were powerful and valuable  
lectures given by Dr. Anna Melville at  
the Y. M. C. A. hall yesterday after-  
noon and evening. Some may have  
come out of curiosity, but whatever  
their object in coming may have been,  
it is a fact that everyone carried away  
with her nuggets of valuable infor-  
mation, more precious than gold. Dr.  
Melville takes up her subject with per-  
fect ease and candor; she illustrates  
her remarks by charts, and shows that  
she not only knows her subject thor-  
oughly, but that she has studied down  
deeply into the cause of dis-  
ease, and has laid hold of  
the root of the difficulty,  
and intuitively sees what is needed to  
overcome the conditions. The veil  
that hangs over our minds with regard  
to the anatomy and physiology of our  
internal structure was drawn aside by  
the doctor as she explained to her in-  
telligent listeners the complex system  
of these temples of the soul so fear-  
fully and wonderfully made. To weak  
women she held out a revelation and a  
hope. Her lecture was sprinkled with  
amusing anecdotes and it is very evi-  
dent she is an advocate of good com-  
mon sense. She says the women  
of the nineteenth century have  
no frivolities. She believes in the new  
woman and likes her, and believes it  
is the sacred duty of every woman to  
fight with her husband by good looks,  
good dressing and good health. Dr.  
Melville is an instructive and enter-  
taining lecturer. The doctor's keen  
discernment into all forms of chronic  
diseases was clearly illustrated and  
we no longer wonder why the sick  
and afflicted flock to see her. Not-  
withstanding the inclemency of the  
weather she had an audience which  
could not have been better had it been  
made to order. Her eye could rest  
on a brilliant garland of Janesville  
women "beautiful, amiable, witty  
and worthy of being," as she said  
herself afterwards, "the wives of their  
husbands." Dr. Melville although a  
stranger in the city has already met  
with hearty appreciation of her skill.

The doctor is an alert active woman  
and is a living example of the fact  
that the medical world is not at a  
standstill.

## CUT A WIDE SWATH

AT THE LINE CITY

ALLEGED FORGER WAS FLYING  
HIGH.

Bought Drinks for "The Boys" with  
Money Gotten of the Saloon Keeper  
with a Bogus Check—Police Trace  
His Movements—New School Su-  
perintendent Hired—County News

Beloit, Wis., June 3.—[Special]—A  
man giving the name of A. R. Brown  
who was "flying high" here last week,  
flourishing certificates of deposit in lo-  
cal banks for upwards of \$4,000 and  
treating the boys generously, played  
some neat tricks on a number of busi-  
ness men. A saloon keeper cashed a  
check of \$10 to accommodate his liberal  
customer, which upon investigation  
proved to be worthless, and now the  
saloon keeper is upbraiding himself for  
furnishing the money wherewith his  
hangers-on had a gay old time.

Tuesday, Geo. H. Cram, the shoe  
dealer, was notified that his check for  
\$47 had been rent from Mazomanie,  
to the Second National bank here for  
collecting. After investigation the  
check was proven to be a very poor  
forgery. It is also learned that he  
secured money on forged checks at  
Madison before coming here. He left  
this city Friday night after "touching"  
everybody that he could for a loan,  
and headed for Mazomanie where on  
Monday he hired a rig and disappeared  
together with the horse and buggy.  
Officers are now in pursuit. Later it  
was learned that the man had been  
seen in Newark township, and officers  
were notified to arrest him.

Free Bicycle Offer Takes.

A trifle over a week has passed since  
we first commenced our free  
bicycle offer with 50 cent  
purchases of tea and coffee  
and the lively interest it has  
created in this department is  
most gratifying. The wheels  
we intend giving away are on  
exhibition in our window and  
are of high grade make. Prices on  
teas and coffees are very low and  
qualities better usually than can be  
found elsewhere in the city. We give  
you an idea of some of the goods and  
prices in our large space. Sanborn &  
Co.

## A TERRIBLE CATASTROPHE.

Hundreds of Lives Lost.

The Cause Seemingly Trivial.—No Less Fatal.

The Indian's Skill. All Praise His Name.

**A** BROKEN bolt seems harmless enough. Yet just such a little thing as this was the cause of the destruction of one of the finest ocean steamers ever built, the loss of thousands of dollars, the death of over a hundred human beings.

It's just this lack of attention to little things that's the cause of thousands of deaths daily. A slight pain here, a trifling irregularity somewhere else. Nothing of importance you think—a little quinine—a little stimulant—a little of this or that. You obtain what appears to be relief, but you're only laying up future trouble for yourself, temporarily patching up a weak spot.

There's but one way. Cure the cause of the trouble—don't be satisfied with dispelling the pain, which is but a result.

There's but one medicine to effectually do this, it is KICK-APPOO INDIAN SAGWA, that greatest of blood purifiers, and besides it invigorates and purifies the system by dispelling all poisonous secretions.

It has no equal as an invigorant of the stomach, kidneys, liver and blood, and a cure for all disorders originating from these great vital centres. It cures quickly and permanently. It contains no poisonous minerals or other deleterious mixtures.

It has been used for years by the Indians, and is made today from roots, herbs and barks exactly as it was made by them for centuries. Their notorious health, strength, and longevity, as well as the thousands of wonderful cures made all over the country, speak volumes for the virtue of this wonderful preparation.

Just give it a trial if you suffer from sleeplessness, loss of appetite, despondency, dyspepsia, nervousness, rheumatism, kidney, liver, lung, blood or heart diseases. We know it will help you, and cure if there is any chance, besides saving you enormous doctor bills.

The Kickapoo Indian Remedies are sold by all druggists.

## A Popular Point on Clothing.

One of the nice things about our line of summer suits is right here:

You can try 'em on. Do they fit? Style and color becoming? Fabric pleasing? Tailoring satisfactory?

All right—half tailor's price—took only a few moments.

## EXTENT OF FROST DAMAGE

Grapes Have Suffered Most and Gardens Have Been Killed.

The regular weekly weather and crop bulletin was issued by the Milwaukee weather office. It is stated that growing crops have made but little progress in this state during the past week, on account of the continued low temperature. The backward season has however been fortunate for crops and fruit under the circumstances, as freezing weather occurred in nearly all parts of the state on May 25 and 26. In many places ice formed and grave fears were entertained for fruit and other crops and had there been much previous growth exposed, the damage would have been decidedly greater. Special reports on the effects of the frost have been received from correspondents, and the general tone of these indicates that the damage has been very much less than might have been reasonably expected. Only six correspondents represent the damage as serious.

Grapes appear to have suffered most and the crop will be somewhat reduced on this account. Gardens were killed in many places and apples and plums injured in exposed localities. Oats and barley on low ground show the effect of the frost. Corn was generally not sufficiently advanced to be injured. Oats are in a healthy condition, but barley does not appear to be doing so well. Spring wheat and rye are doing fairly well. Winter wheat is heading out in the southern portion of the state and promises a fair yield. Corn planting is practically completed and much of the early plantings is already up. Its progress, however, has been slow and there is more than the usual complaint of the seed rotting in the ground. The week closed with very cold weather and frosts again on Monday morning.

## EATS NICKEL PLATING.

The Facts Slowly Come Out.

I notice that all around the faucet and the faucet handles of our coffee urns the nickel plating is worn off," said the coffee maker in one of the large city restaurants, lately, "and the inside of this big dipper that we use steady, in drawing off coffee, gets to be a sight. I believe it hurts people's stomachs more than they think. I know I had to quit it, and when I quit, my dyspepsia left me in less than a week."

## TO MAKE WAR ON THE SALOON.

Fifty Wisconsin Pastors Meet at Milwaukee to Form a League.

Rev. Frank A. Pease represented Janesville at a meeting of fifty pastors of the state in Lincoln hall, Milwaukee, to organize a state anti-saloon league. Rev. D. C. John of this city was made temporary chairman and Rev. R. F. Sanford of Oshkosh secretary. They were addressed by Rev. John F. Brandt, who is at the head of the league in Michigan and was prominent in the organization of the one in Ohio. He set forth the four principles of the league as follows: First, that it shall be non-political; second, it shall be interdenominational, and include churches orthodox and unorthodox, and members of no church at all, pastors, college professors, christian business men, and, if they will, drunkards; third, it shall be made a business, and have a salaried official at its head, a committee being appointed in every voting district in the state; fourth, that it shall have a well-defined programme. Every state in the union has now made request for a league. "We want," said Rev. Brandt, "a committee in every legislature; a committee that shall appeal not in the name of its party or of its creed, but in the name of the sovereign people." At the close of the address a telegram was read from W. W. Cooper, state president of the Epworth League, pledging the co-operation of 25,000 members of the league in the state. Rev. John was obliged to leave the meeting, and his place was taken by Rev. Henry Colman, who made a few remarks.

## BISHOP'S APPEAL IS ISSUED

Asks Aid for the Orphanage at Delafield, Near Milwaukee.

Bishop Nicholson, of this Episcopal diocese, on behalf of the trustees of The Sheltering Arms of Our Merciful Savior, the country home for orphans near Delafield, has issued a circular letter asking for contributions with which to carry on the work. There are at present forty children from Chicago and Milwaukee who are being looked after at the home. This is about one-half the number that can be comfortably accommodated. To show the extent of the work, the bishop states that last year over 13,000 meals were served to the inmates. The weekly cost of maintaining the children at the home is \$2 per capita. Contributions of food and clothing will be gladly welcomed, in addition to money contributions. Donations may be sent to F. G. Bigelow, the treasurer of the home. Bishop Nicholson is the president and Dr. Delafield secretary.

## The Marvel of Modern Science

## Tumors Discovered by Means of X-Ray

Old Versus New. Education shapes our beliefs and prejudices and makes us cling to old-fashioned ideas and notions until new developments in science prove the error of our teaching and force new truths upon us. A few months ago you would laugh at anyone claiming to be able to photograph an object through a six-inch plank, and yet today everyone knows this is easily accomplished by electricity. Scientific discovery is constantly upsetting old doctrines and enabling us to do hitherto impossible things. In no way has this fact been more strikingly illustrated than by the results of my new methods of curing.

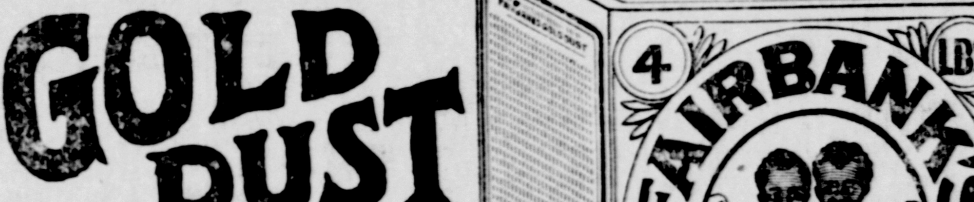

Chronic Diseases—Almost every person has been told by good and honest doctors that the chronic disease of which I make a specialty could not be cured. Not long ago that was true, but it is not true today. The doctor who makes such an assertion is away behind the times. He has lost step in the march of science, his professional knowledge is covered with cobwebs, moth-eaten, and needs to be renovated by a new course of study in the up-to-date Hospitals devoted to these special diseases. He may be a good doctor for decades, he may be well versed in ancient history, but he is a "back number" on special and chronic diseases. Hundreds of thousands of people are every year doctored by physicians who have no idea what the trouble is, and rather than confess their ignorance, they prescribe and treat the confiding patients without the least chance of benefitting them, and a great many chances of positive injury.

A Secret of Dr. Melville's Success—The question is often asked, "How is it that cases that have baffled other physicians for years?" The answer is easily found. She confines her attention to chronic diseases, leaving all acute cases to the general practitioners. She has devoted her life to the study of those diseases exclusively in the large hospitals in London, Paris and New York. She spares no expense to secure for the patient the latest and best medicine, and is supplied with expensive apparatus and necessary instruments.

## THE PATENT OFFICE SCANDAL.

It is not remarkable that a bill has been introduced in congress imposing a heavy fine or imprisonment upon alleged patent attorneys who offer prizes and medals as an inducement to apply for a patent. A more taking scheme for obtaining money has seldom been invented. "Thousands have been caught by it, and have lost, not only the money they have paid the attorney and the government, but in a jack o'lantern pursuit of fortune, in a promised but never to be obtained patent, have stopped work and even mortgaged or sold their property. The aggregate misery from this source is pathetic to contemplate.

These attorneys have advertised far and wide that "ideas are patentable," and have a commercial and marketable value. A most delusive and hurtful deception. The lists of "patents wanted" which they send to stimulate invention, as a matter of course, embrace classes in which there are already from ten to one hundred patents granted. Indeed, it is impossible to print a list of one hundred inventions, without mentioning at least ninety-nine that have been each covered by many patents.

It is a kindness on the part of the government to refuse the grant of patent, as it does in nine cases in ten, to these deluded applicants, for the grant of a flimsy, worthless patent for an almost obsolete device would only involve the owner in further fruitless expense.

All these attorneys have so-called sale agency annexes, and, under the pretence of being able to sell the patent, still further fleece the poor men and women by getting their money for advertising. Of course, they never sell, for the patents they procure are weak and worthless, and no one posted in the class of invention to which they pertain, would accept them as a gift.

Senator Morgan having failed to get up a foreign war, is trying to console himself by making a personal fight on Speaker Reed. If this amuses the Alabamian Mr. Reed would be the last man in the world to object to its continuance.

Secretary Grg's words, "Faith and courage lead to conquest and victory; distrust paralyzes and destroys," should be shouted from the housetops, until a full realization of their truth and timeliness has entered the mind of every man.

While the senate may not be moving as rapidly as it might be, it is making real progress with the tariff bill, and is removing the objectionable features of the proposed amendments.

The republican senators displayed wisdom when they adopted the united-we-stand method of dealing with tariff amendments.

## CHICAGO MARKETS BY WIRE

Robert Lihblom's Letter On the Condition of Crops and Trade.

Chicago, June 3.—[Special]—It seems that we turned bullish on wheat on the bottom and that is satisfactory of course. The cash demand yesterday was the key to the situation and the amount was 265,000 bushels. Our man reports lots of chinch bugs in Missouri and we assume they are or will be in Kansas also, and they will be in the cornfields as well as in the wheat.

This is probably one reason why corn opened so strong. Scattering reports about damage from frost are received, but the most serious aspect is that the corn plant is making no progress and a late corn crop is a dangerous one, always. We look for big speculation in corn and at present lower prices it should be only attractive. With very favorable results to growing crops a few cents loss is possible, with any serious drawback the profit will be very large on the investment that is the way it looks to me, and I strongly advise buying September corn, or even July corn. Either is good enough. Both will pay.

The country has not been in wheat at all, but the country will buy corn and pork on any pretext. The pretext is already here and it will be emphasized later on, unless some great change occurs in crop condition. Corn is a semi-tropical plant and must have heat and moisture. Wheat will grow without either it seems, and is destroyed only occasionally by insects and in spots.

Liverpool closed about two pence higher, but our sympathetic advance did not hold. The crowd is educated to the bear side and they act on it. Oats will sympathize with corn, they have been strong during all the weakness elsewhere.

## CARS DID A GOOD BUSINESS.

Supt. Cummins Well Satisfied With Memorial Day Receipts.

Business has begun with the street car company under favorable circumstances. On Memorial day the total number of passengers carried were 1,585, while on the corresponding day of last year the total number footed up to 2,551. In spite of this difference in figures Superintendent Cummins says that he is well satisfied when it is considered that but three cars were running this year, while last Memorial day there were six in service. It will be several days yet before the new cars are ready for use.

F. S. Winslow will begin the work of collecting the money subscribed to build the power house and car barns, at once. Mr. Blabon figured that it would cost him \$7,000, exclusive of the buildings, to equip the line, but found that it required an expenditure of \$10,000. The best electrical machinery has been bought, and the Brownell Car Company of St. Louis, have built three handsome modern cars for use on the line. He has done all that he promised to do, and the line is now in much better condition than it was before the fire.

The money will be collected as rapidly as possible, and deposited by the committee. When the cash is all in hand, it will be paid over to the Street Railway Company.

## SUITS BEGUN AT OSHKOSH

## WHO IS THIS JAMES MORGAN?

Police Get a Message Announcing His Sudden Death at Quincy, Ill.

Who is "James Morgan of Janesville, Wis?"

That is a question that Chief Hogan is now trying to solve. A telegram arrived in the city this morning from Chief of Police John Ahern of Quincy, Ill., stating that a James Morgan had died in that city this morning and just before his death he said that he had relatives living in this city. The young man was 22 years old. The Quincy authorities want to know what they will do with the remains. No such name appears in the directory.

Not one ticket was sold from this city to Dubuque today, where the big Woodmen's picnic is now in progress. ## BEDRIDDEN.

## FIFTEEN YEARS OF SUFFERING.

The Doctors Wanted Seven Hundred Dollars to Attempt the Cure.

The following is a letter we received a short time ago from Mrs. M. C. Hinkley, 602 North Mississippi St., Indianapolis, Ind. Gentlemen:—While suffering intensely from piles, I became interested in your advertisement in one of our daily papers and procured a package of your Pyramid Pile Cure from our druggist. Contrary to any expectations, the relief was instantaneous. I used two boxes of the Pile Cure and one of the Pills and am convinced that they are the only sure cure for piles on the market. I have been a sufferer from piles for fifteen years and have been confined to my bed about one-half of the time, expecting and wishing for death for the pain was so great. I went to the college here and the doctors said my case was a new one to them, the great pain having brought on a large rupture, which they wanted seven hundred dollars to cut out. I was very much afraid that death would result from the blood-poisoning which they said would result from the operation. I feel as though I can't praise the Pyramid Pile Cure and the Pyramid Pills too highly, as I am convinced that they saved my life. Before using your cure I weighed only ninety pounds and feel as well as I ever did in my life. You are at liberty to use this testimonial in any manner you may see fit, as I want all sufferers from this terrible disease to know that there has at last been compounded a remedy that will cure piles.

MRS. M. C. HINKLEY.  
There is no need of the danger, pain and expense of a surgical operation for any form of piles. The Pyramid Pile Cure does the work without pain and is the safest and best. Remember also that the Pyramid Pills are a certain cure for constipation, acting without griping and restoring natural action to the bowels.  
The Pyramid Pile Cure is sold by druggists at 50 cents and \$1.00, and the Pyramid Pills at 25 cents, or by mail from Pyramid Co., Albion, Mich.

## THINK THE OLD JAIL MAY BE REPAIRED

SUPERVISORS ARE LOTH TO  
SPEND \$40,000.

They Admit the Present Building Is a Little Old Fashioned, But Say the Interior Can Be Remodelled To Meet All the Sanitary Requirements.

Jail plans and tramp workhouses were discussed by the county board today. The jail question came up as a special order. Most of the board visited the jail at the noon intermission, and at 3 o'clock Supervisor T. B. Eager of the building committee offered a resolution that a committee of three be appointed to procure all possible information as to the needs of a new jail and the estimated cost.

Supervisor Eager believed the state board of control could be in need to reconsider its decision. Similar notice was given the county twelve years ago, and a \$10,000 appropriation for a new jail was believed to be inevitable. Repairs to the extent of \$2500 were made instead, and no further complaint was made. As long as Rock county was \$110,000 in debt, Supervisor Eager thought the board should go slow about incurring heavy expense.

Supervisor Kendall, of Beloit, insisted that he thought there would be less trouble about the jail if Janesville were not allowed to make it a dumping place for drunks. He believed that the dark caves in the old jail could be replaced by steel cages and that with the installation of a new ventilating system the jail might be made perfectly satisfactory.

Supervisor Bear said his experience led him to believe that the jail plumbing was perfectly satisfactory; that the ventilation was bad and the masonry was unsatisfactory on account of the disintegration of the mortar.

Opinions of Physicians.

Dr. Q. O. Sutherland was asked his opinion as to the jail's condition, but said he had made no examination. Dr. J. B. Whiting said he saw no reason why the sanitary condition of the jail could not be made fairly satisfactory. The present tendency, Dr. Whiting pointed out amid laughter, was to try to provide better buildings for the criminal and the defective classes than we have for our own use.

The board favored securing plans for the rebuilding of the old jail rather than providing for a new building.

Work Houses a Success.

Figures from Oshkosh, Green Bay, Fond du Lac and Appleton were read by Clerk W. J. McIntyre, showing the cost of tramp workhouses, the capacity and effectiveness of the plan.

Oshkosh reported that 218 prisoners had been committed since the house was opened July 1, 1896, and that they were kept at work breaking stones for roads. The decrease in the number of tramp commitments compared with the first six months of 1896, was 1,968. The saving to the county was \$10,000.

Appleton reported thirty prisoners since the workhouse opened December 15, 1896. A year ago the tramps in the county jail averaged eighty-five. They now average about four and one-half.

Green Bay's workhouse was opened December 1, 1895. Since then there have been 289 prisoners, a startling reduction from the old figures. Tramps are kept at work breaking stones for roads and never come back for a second term.

The Appleton workhouse and site cost \$1550 and about \$3,000 a year to operate. The Green Bay workhouse and site cost about \$3,975, and costs \$2,400 a year to operate. The Oshkosh workhouse and site cost \$3950.

Improvements Cost \$1557.33.

Bills aggregating \$600 for insurance on county property were allowed without reference.

The building committee reported the changing of offices in the court house and the supplying of new vaults and files. The entire cost had been \$1,266.50 for material and \$290.83 for labor, a total of \$1,557.33. Changes in buildings on the county farm, the building of a concrete walk and the setting of shade trees, were also reported. The report was approved. An appropriation of \$400 was made for repairs and improvements on county property.

The building committee was directed to add twenty feet to the smoke stack at the poor farm if required; to fit up a toilet room in the circuit court jury room; and to add shelf room to the county clerk's office.

The finance committee was directed to inquire as to the number of saloon licenses on which the county was entitled to a \$50 payment this year.

At the opening of the morning session Chairman More announced his committees as follows:

## TO FILL IN TRESTLE ON "CUT OFF" LINE

HUNDREDS OF LOADS OF GRAVEL  
TO BE USED.

The Chicago & Northwestern Company Crews Begin Work That Will Keep Them Busy For Some Time To Come—Will Build Up Framework with Solid Earth Embankment

A big undertaking to be carried out in the city by the Chicago & Northwestern railroad company was commenced this week on River street between Ravine and Race street.

The large wooden trestle work that has connected the "Evanston cut-off" with the main track is to disappear. It will not be removed but several thousand loads of earth will be used to completely bury it and make one of the largest artificial embankments in this part of the state.

For several weeks past the officials of the company have contemplated this move. Civil Engineer H. W. Patton, of Baraboo, arrived in the city this morning and spent considerable time in mapping out the work. Foreman August Brieske, of LaCrosse, has arrived in the city in charge of nine expert masons and work is now under way. An arched stone culvert is being built beneath the trestle in order to carry the water to the river from Ravine street. This part of the work alone will take several days to complete.

Will Use Much Gravel.

The culvert proper will be four feet high, 120 feet long and four feet wide and when completed it will cost about \$300. At the completion of this culvert the task of filling in from the top of the trestle work to the ground will be commenced. It will take hundreds of loads of gravel and require some weeks time. Special gravel trains will be pressed into service and it is said that they will work from the large pit owned by the company near the Hanson Furniture Company factory. The present wooden trestle was erected at the time the new branch line was built to Evansville. It has stood the test of time and is now considered in perfect condition. For this reason it is deemed best now to commence the work of covering it.

"Time has proved to us that where a track rests on solid earth it is safer in every way than if it was suspended fifty feet in the air on a trestle," remarked a prominent railroad official this morning, "and especially is this true where the trestle is made of wood for in time this material rots away."

## STRAWBERRIES WERE CHEAP

Chicago Market Was Flooded and Prices Dropped Yesterday.

Telegrams to local merchants early yesterday morning from wholesale merchants in Chicago told of a flood in the strawberry market and notified them that now was "the time to subscribe." Nearly fifty cars arrived Tuesday evening at Chicago, filled with Michigan, Missouri, Indiana and Illinois berries, along with scattering lots from Maryland and Ohio. Local merchants took advantage of the fact and on the morning and noon trains into this city hundreds of oboxes arrived. Prices dropped from eight and ten cents to five and one cent side merchant had a sign out "six boxes for a quarter."

**GIVES STRENGTH TO MEN**

Free To All Who Are Weak And Worn

**A METHOD TO CURE AND INCREASE THE POWER.**

It is a remarkable fact that a man never appreciates the sufferings of others until he himself has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering; he wants them to profit by his experience; he gives his time and money gladly for the

benefit of others and never tires of his zeal. There are plenty of men weak and worn out, struggling with remorse and fear, the natural outcome of habits that brought incapacity; a sense of lonesomeness and a feeling as if the best side of life had been banished forever.

Such men should write to Thomas Slater, Box 424, Kalamazoo, Mich. He will send free by mail, in a plain, sealed envelope, full particulars about the method he used, and this will enable any man to get a complete cure at home. It is the method that Mr. Slater used to cure himself of the troubles that sap the strength and vigor and also enlarged his organs to natural size. The cure was complete, satisfying and such a wonderful change in his former condition that he will gladly tell others all about it, sending all particulars. He figures that he doesn't know of a better way to show his appreciation of his own cure and sufferings of others. There must be generous men in this world to offset the tide of avarice. Write to Mr. Slater; it will cost nothing for his description and method.

## CHAPTER III.

A NIGHT'S WORK ON THE ALKALI PLAINS.

I hurried Miss Cullen into the car, and, after bolting the rear door, took down my Winchester from its rack.

"I'm going forward," I told her, "and will tell my boys to bolt the front door; so you'll be as safe in here as in Chicago."

In another minute I was on my front platform. Dropping down between the two cars, I crept along beside—indeed half under—Mr. Cullen's special. After my previous conclusion, my surprise can be judged when at the farther end I found the two Britishers and Albert Cullen standing there, in the most exposed position possible. I joined them, muttering to myself something about Providence and fools.

"Aw," drawled Cullen, "here's Mr. Gordon, just too late for the sport, by Jove."

"Well," said Lord Raltes, "we've had a hand in this deal, Mr. Superintendent, and haven't been potted. The scoundrels broke for cover the moment we opened fire."

By this time there were 20 passengers about our group, all of them asking questions at once, making it difficult to learn just what had happened, but so far as I could piece the answers together the poker players' curiosity had been aroused by the long stop, and, looking out, they had seen a single man, with a rifle, standing by the engine. Instantly arming themselves, Lord Raltes let fly both barrels at him, and in turn was the target for the first four shots I had heard. The shooting had brought the rest of the robbers tumbling off the cars, and the captain and Cullen had fired the rest of the shots at them as they scattered. I didn't stop to hear more, but went forward to see what the road agents had got away with.

I found the express agent tied hand and foot in the corner of his car, and, telling a brakeman who had followed me to set him at liberty, I turned my attention to the safe. That the diversion had not come a moment too soon was shown by the dynamite cartridge already in place and by the fuse that lay on the floor, as if dropped suddenly. But the safe was intact.

Passing into the mail car, I found the clerk tied to a post, with a mail sack pulled over his head, and the utmost confusion among the pouches and sorting compartments, while scattered over the floor were a great many letters. Setting him at liberty, I asked him if he could tell whether mail had been taken, and, after a glance at the confusion, he said he could not know till he had examined.

Having taken stock of the harm done, I began asking questions. Just after we had left Sanders two masked men had entered the mail car and while one covered the clerk with a revolver the other had tied and "sacked" him. Two more had gone forward and done the same to the express agent. Another had climbed over the tender and ordered the runner to hold up. All this was the regular programme, as I had explained to Miss Cullen, but here had been a variation which I had never heard of being done and of which I couldn't fathom the object. When the train had been stopped, the man on the tender had ordered the fireman to dump his fire, and now it was lying in the roadbed and threatening to burn through the ties, so my first order was to start a new fire and get up steam as quickly as possible. From all I could learn there were eight men concerned in the attempt, and I confess I shook my head in puzzlement why that number should have allowed themselves to be scared off so easily.

My wonderment grew when I called on the conductor for his tickets. These showed nothing but two from Albu-

querque, and, using the momentum of the stride to help, I put the flat of my hand against the shoulder of the man and gave him a shove. There were three or four Harvard men who can tell what that means, and they were braced for it, which this fellow wasn't. He went staggering back as if struck by a cowcatcher and lay down on the ground a good 15 feet away. His having his arm around Miss Cullen's waist unsteady her so that she would have fallen, too, if I hadn't put my hand against her shoulder. I longed to put it about her, but by this time I wanted to do only what I thought she would wish and so restrained myself.

Before I had time to finish an apology to Miss Cullen the fellow was upon his feet and came at me with an exclamation of anger. In my surprise at recognizing the voice as that of Lord Raltes I almost neglected to take care of myself; but, though he was quick with his fists, I caught him by the wrists as he closed, and he had no chance after that against a fellow of my weight.

"Oh, don't quarrel!" cried Miss Cullen.

Holding him, I said, "Lord Raltes, I overheard what Miss Cullen was saying, and supposing some man was insulting her I acted as I did." Then I let go of him and, turning, said, "I am very sorry, Miss Cullen, if I did anything the circumstances did not warrant," while cursing myself for my precipitancy and for not thinking that Miss Cullen would never have been caught in such a plight with a man unless she had been half willing, for a girl does not merely threaten to call for help if she really wants aid.

Lord Raltes wasn't much mollified by my explanation. "You're too much in a hurry, my man," he growled, speaking to me as if I were a servant. "Be a bit more careful in the future."

I think I should have retorted—for his manner was enough to make a saint mad—if Miss Cullen hadn't spoken.

"You tried to help me, Mr. Gordon, and I am deeply grateful for that," she said. The words look simple enough set down here. But the tone in which she said them and the extended hand and the grateful little squeeze she gave my fingers all seemed to express so much that I was more puzzled over them than I was over the robbery.

Going back beyond Lamy didn't give anything, for the conductor was able to account for every fare as either still in the train or as having got off at some point. My only conclusion was that the robbers had sneaked on to the platforms at Sanders, and I gave the crew a good dressing down for their carelessness. Of course they insisted it was impossible, but they were bound to do that.

Now-You-See-It-And-Now-You-Don't--Men Are Busy.

Another snap game of the film-film order is being worked and business men and others will do well to keep their eyes peeled. A stranger enters a place and explains that he wants to send \$5, \$10 or \$20 away in a letter; you lay out the bill and he dumps a handful of change before you; while you count it he seals the bill in an envelope; you find the change short and so report. The man gobbles the change and gives you the letter to hold till he gets back, but he never comes. The money is not in the envelope.

Cator--Tracey.

Will Extend the Armistice.

London, June 3.—The Turks have promised to sign the extension of the armistice today, and it is expected that peace negotiations will begin promptly at Constantinople. King George, it is understood, has yielded several points, with a view of hastening the negotiations and of bringing about the Turkish evacuation of Thessaly. In this matter, it is said, the Russian government has promised to support Greece.
